

## Product Description:

The high solvent power of **GAZ-CC02** quickly dissolves oils, grease, fats and without attacking many plastics, coatings, varnishes or markings. These solvent properties are particularly important where such items as electronic components, electrical insulation and metals are being cleaned.

### Industrial Equipment

- \*Contacts / relays
- \*Wipers
- \*Switches
- \*Motors
- \*Actuating Mech

### Other Equipment

- \* Traffic signal controller
- \* Parking Meters
- \* Coin Mechanisms
- \* Electro Mechanical Devices

**GAZ – CC02** will air-dry in a matter of seconds. No need to hard dry. Excellent cleaning results without the hassle of scrubbing parts. Cleaned parts are ready for assembly.

## Applications / Features:

### Advantages & Benefits:

- Non-Flammable Safety Solvent
- Cleaner-Degreaser
- High Di-Electric Strength (In Excess of 25,000 Volts)
- Flushes Surface Clean
- Leaves No Residue
