

# GAZ–LG02 Open Gear & Cable Lubricant

## Product Description:

**GAZ–LG02** is an asphalt-free lubricant, specially formulated for ease of application through a centralized system or by hand application.

## Applications / Features:

- Lubrication of wire ropes, cables, flexible couplings, chains, open gears, and partly enclosed gears.
- Also used on sliding surfaces of drag lines and shovels.
- Open gears of mine hoists, ball mills, rubber mixers, cement mills, cake ovens, construction equipment, and other applications where adhesive grease is required.
- Long lasting protection because of tackiness and durability of coating.
- Water resistant – offers rust protection in wet applications.
- Provides corrosion protection to cable and chains.
- Extreme pressure properties protect heavily loaded gears from scoring and galling.
- No longer contains asphalt.

## Typical Properties:

GRAVITY, °API	23.1
FLASH POINT, °F. PMCC	165
POUR POINT, °F	50
VISCOSITY:	
cST @ 40°C.	3500
COLOR, D-1500	D8
